CONFIDENTIAL LETTER
MAR 7, 2022
No. D425]

Re: *Ban on the sale and use of water pipes, commonly called "SHISHA"*

The Minister of Public Health, by letter no. D181-04/NP/MINSANTE/SG/DPS/CNLD/SP of April 28, 2021, regarding the topic indicted in the margin, tasked me with obtaining the help of the administrative authorities in relation with the National Anti-Drug Committee (*Comité National de Lutte contre la Drogue*) to seize a few samples of "SHISHA" to analyze their toxicity level.

In addition, during the meeting held on January 19, 2022 at the Ministry of Public Health, that committee repeated that suggestion, in the form of a recommendation.

In that regard, I have the honor of asking you to please initiate the appropriate actions in your respective administrative units.

Please inform me of the measures you have taken./-
